

# Pushkar Jat

dev.pushkarjat@gmail.com

Full Stack & Chatbot Developer

Full Stack developer with Javascript experience, I have developed teams-bot by typescript and node.js application from scratch, including database, CI/CD, and nodejs backend. Server side I have made several APIs with express.js, node.js. Other skills include unit testing, basic machine learning with python and concept design.

## Skills

C++	Github and Actions	Node.js	JS, HTML, CSS
Advanced	Advanced	Above Intermediate	Advanced
CI/CD	Unit Testing	React.js	TypeScript
Intermediate	Basic	Intermediate	Intermediate
Express.js	Python		
Intermediate	Basic		

## Experience

- [MWP & CHATBOT Developer @ Celebal Technologies](#)

Jan 2021- Present

A service based startup reaching great heights, I am handling complete bot development, Azure and deployment for our apps like merchant based customer support, apis as service, central monitor and logs across aws infra, and node servers. On tech stack we are using Typescript, Nodejs, Azure devops.

- [Network expert @ Chegg](#)

August 2020 - Jan 2021

In Chegg, as a Subject Matter Expert, you are expected to answer questions posted by students on the Q&A board while maintaining a high level of academic integrity.

- [Full Stack Dev Internship @ Hornet](#)

Jun 2020 - September 2020

Worked with application security engineering team to develop a system to use password prediction on common open dev panels. My role was to write analyser to generate patterns out of known breaches.

## Freelance & Projects
